### Canon's Initiatives

We are tackling environmental issues such as climate change, resource depletion, pollution, and biodiversity loss on a global scale. To help leave a prosperous planet for future generations, Canon is taking various Group-wide initiatives.

**Contributing to a Low-Carbon Society**  
Canon is contributing to a low-carbon society by working to reduce CO<sub>2</sub> emission at all stages of the product lifecycle, including energy-efficient products design, initiatives at operational sites and production activities, and Logistics.

[View more >](#)

**Contributing to a Circular Economy**  
Canon strives to recycle products and reduce water consumption and the generation of waste from manufacturing at our operational sites.

[View more >](#)

**Eliminating Hazardous Substances and Preventing Pollution**  
Canon thoroughly manages chemical substances in products and those used in manufacturing processes to prevent environmental pollution and adverse effects on people's health.
