## I. Operating Results and Financial Conditions

## 2007 First Half in Review

Looking back at the global economy in the first half of 2007, economic expansion was fairly steady during the term. The U.S. economy continued to display growth, supported by healthy consumer spending, despite a decrease in housing investment and a moderate slowdown in corporate capital investment. In Europe, while exports appeared somewhat sluggish due to the appreciation of the euro, the region indicated a trend toward moderate recovery as domestic demand expanded in major European countries, boosted by such factors as increased consumer spending owing to improvements in the employment environment. Within Asia, the Chinese economy maintained a high rate of growth while other economies in the region also enjoyed generally favorable conditions. In Japan, the economy maintained a trend toward recovery thanks to such factors as increased capital spending fueled by strong corporate performances and gradual improvements in consumer spending.

As for the markets in which the Canon Group operates, within the camera segment, demand for digital single-lens reflex (SLR) cameras and compact digital cameras continued to realize healthy growth during the term. Within the office imaging product market, demand for network digital multifunction devices (MFDs) remained solid amid the shift in all regions toward color models and advanced functionality. In the computer peripherals segment, which includes printers, while demand for laser beam printers grew for both color and monochrome models, and demand for inkjet printers shifted from single-function to all-in-one models, multifunctional models in particular suffered amid severe price competition. In the optical equipment segment, while demand for steppers, used in the production of semiconductors, indicated a moderate recovery, the market for projection aligners, which are used to produce liquid crystal display (LCD) panels, declined due to restrained investment by LCD manufacturers. The average value of the yen in the first half was $¥ 120.07$ to the U.S. dollar and $¥ 159.77$ to the euro, representing year-on-year decreases of about $4 \%$ against the U.S. dollar, and about $12 \%$ against the euro.
Amid these conditions, Canon's consolidated net sales for the first half increased by $11.0 \%$ from the year-ago period to $¥ 2,166.7$ billion (U.S. $\$ 17,616$ million), boosted by a solid rise in sales of digital cameras, color network MFDs and laser beam printers, along with the positive effect of favorable currency exchange rates. The gross profit ratio improved 1.0 point year on year to reach $51.1 \%$. The improved gross profit ratio was mainly the result of such factors as suppressing price decline through the launch of new products and cost-reduction efforts realized through ongoing production-reform and procurement-reform activities, along with the in-house production of key components, which absorbed the effects of escalating raw material costs and severe price competition in the consumer product market. Owing to the increase in sales and the improved gross profit ratio, first-half gross profit rose by $13.2 \%$ to $¥ 1,107.6$ billion (U.S. $\$ 9,005$ million). As for operating expenses, while first-half R\&D spending grew by $16.2 \%$ from the year-ago period to $¥ 170.3$ billion (U.S. $\$ 1,384$ million), the selling, general and administrative (SG\&A) expenses to net sales ratio was approximately the same level as for the corresponding period of last year, with SG\&A expense increasing $11.1 \%$ year on year, almost the same rate of growth as for net sales. In addition, from the second quarter of this year, the company implemented a change in the accounting method used to estimate depreciation of fixed assets, which resulted in a combined increase of $¥ 19.3$ billion (U.S. $\$ 157$ million) in cost of sales and operating expenses compared with the previously used method. Consequently, operating profit in the first half totaled $¥ 388.9$ billion (U.S. $\$ 3,162$ million), a year-on-year increase of $14.9 \%$. Other income (deductions) improved by $¥ 14.7$ billion (U.S. $\$ 119$ million), due to such factors as an increase in surplus funds and interest income accompanying the rise in the interest rate, as well as a decrease in currency exchange losses on foreign-currency-denominated trade receivables. Income before income taxes and minority interests in the first half totaled $¥ 406.1$ billion (U.S. $\$ 3,302$ million), a year-on-year increase of $19.1 \%$, and first-half income totaled $¥ 255.2$ billion (U.S. $\$ 2,075$ million), both recording all-time highs on a first-half basis.

Basic net income per share for the first half was $¥ 194.38$ (U.S.\$1.58), a year-on-year increase of $¥ 33.53$ (U.S.\$0.27).

## Results by Product Segment

In the business machine segment, demand for network digital MFDs, which are grouped in the office imaging products sub-segment, has continued to expand for color models in both domestic and overseas markets. Additionally, among color network digital MFDs, the competitively priced iR C2880 series and the new high-end iR C5185 series continued to enjoy strong demand. Among monochrome network digital MFDs, the iR5055 series and the new energy-saving iR3025 series contributed to expanded sales. Overall, sales of office imaging products for the first half realized a year-on-year increase of $8.0 \%$. In the field of computer peripherals, laser beam printers achieved a year-on-year unit sales growth of almost $40 \%$, with both color and monochrome low-end models selling particularly well. In addition, consumables also recorded healthy sales growth, contributing to an increase of $19.2 \%$ in value terms for the segment. As for inkjet printers, despite a continuing decline in unit sales for single-function models and severe price competition in the market, sales in value terms increased by $14.0 \%$, boosted by such factors as increased unit sales of multifunction models, such as the PIXMA MP600, and favorable sales growth for consumables. As a result, sales of computer peripherals for the first half realized a year-on-year increase of $17.6 \%$. Sales of business information products, however, decreased by $1.9 \%$ due to a decline in sales of personal computers in the Japanese market. Collectively, sales of business machines for the first half totaled $¥ 1,446.6$ billion (U.S. $\$ 11,761$ million), a year-on-year increase of $12.4 \%$. Operating profit for the business machine segment totaled $¥ 335.5$ billion (U.S. $\$ 2,727$ million), a year-on-year increase of $13.9 \%$, made possible by such factors as an increase in gross profit and an improvement in the expense to net sales ratio.
Within the camera segment, demand for digital SLR cameras fueled growth, with the EOS DIGITAL REBEL XTi model, launched in September 2006, selling particularly well. This, in turn, led to expanded sales of interchangeable lenses for SLR cameras. As for compact digital cameras, the company strengthened its lineup with the launch of ten new models, including three stylish ELPH-series models and seven PowerShot-series models that cater to a diverse range of shooting styles. Accordingly, unit sales of digital cameras for the first half expanded nearly $20 \%$ compared with the year-ago period. As a result, camera sales overall for the first half increased by $12.9 \%$ from the year-ago period to $¥ 519.6$ billion (U.S. $\$ 4,224$ million). The gross profit ratio for the camera segment also rose substantially, boosted by such factors as strong sales of newly introduced products, which served to suppress declines in prices, along with cost-reduction efforts realized through production-reform and procurement-reform activities. As a result, operating profit for the camera segment increased by $26.3 \%$ year on year to $¥ 137.3$ billion (U.S.\$1,116 million).

In the optical and other products segment, while steppers, used in the production of semiconductors, enjoyed steady demand, sales of optical products decreased in the first half amid declining demand for aligners, used to produce LCD panels, as investment by LCD manufacturers remains at a low level. As a result, sales for the segment totaled $¥ 200.5$ billion (U.S. $\$ 1,631$ million), a year-on-year decrease of $2.3 \%$. Operating profit for the segment decreased by $7.8 \%$ year on year to $¥ 21.4$ billion (U.S. $\$ 174$ million).

## Cash Flow

In the first half of 2007, Canon generated cash flow from operating activities of $¥ 440.3$ billion (U.S. $\$ 3,580$ million), a year-on-year increase of $¥ 116.4$ billion (U.S. $\$ 947$ million), reflecting the substantial growth in net sales and net income. Cash flow from investing activities totaled $¥ 209.3$ billion (U.S. $\$ 1,702$ million), due to such factors as active capital investment, used mainly to expand the company's production capabilities. As a result, free cash flow totaled $¥ 231.0$ billion (U.S. $\$ 1,878$ million), representing a $¥ 117.4$ billion (U.S. $\$ 954$ million) improvement from $¥ 113.6$ billion for the year-ago period.
Cash flow from financing activities recorded an outlay of $¥ 279.8$ billion (U.S.\$2,275 million), mainly resulting from the dividend payout of $¥ 66.6$ billion (U.S. $\$ 541$ million) in accordance with the company’s basic policy regarding profit distribution and the $¥ 200.0$ billion (U.S. $\$ 1,626$ million) purchase of treasury stock with the aim of improving capital efficiency and ensuring a flexible capital strategy. Consequently, cash and cash equivalents, which totaled $¥ 1,108.7$ billion (U.S.\$9,014 million), although representing a $¥ 46.9$ billion (U.S. $\$ 381$ million) decrease from the end of the previous year, remained at a high level.

## Non-consolidated Results

Canon Inc.’s non-consolidated net sales during the first half totaled $¥ 1,371.0$ billion (U.S. $\$ 11,146$ million), a year-on-year increase of $8.3 \%$. Ordinary profit grew by $22.8 \%$ to $¥ 302.3$ billion (U.S. $\$ 2,458$ million) and net income increased $29.2 \%$ to $¥ 200.9$ billion (U.S. $\$ 1,634$ million), marking all-time highs for both first-half ordinary profit and net income.

## Outlook

As for the global economic outlook in the third quarter and thereafter, although uncertainty surrounds such factors as the future direction of crude-oil and raw-material prices and a slowdown in the U.S. economy, the global economy is expected to continue growing steadily.
In the businesses in which Canon is involved, demand for both digital SLR cameras and compact digital cameras is expected to continue enjoying robust growth. As for network digital MFDs and laser beam printers, while additional demand is projected for full-color models, severe price competition and shifting demand toward lower-priced models are expected to continue. Within the semiconductor-production equipment market, demand for steppers indicates a trend toward steady performance supported by increasing orders from chip manufacturers, while demand for projection aligners used in the production of LCD panels is expected to continue being sluggish as investment by LCD manufacturers remains at a low level.
Following a review of the current business climate and currency exchange trends, the company has revised upward its consolidated net sales forecast for the 2007 fiscal year to $¥ 4,580.0$ billion (U.S. $\$ 37,236$ million), while revising downward its forecasts for consolidated income before income taxes and minority interests to $¥ 788.0$ billion (U.S. $\$ 6,407$ million), and consolidated net income to $¥ 500.0$ billion (U.S. $\$ 4,065$ million). These revisions assume an increase in depreciation expense of around $¥ 67.0$ billion (U.S. $\$ 545$ million) as a result of the change in the accounting method used to estimate depreciation of fixed assets that was implemented from the second quarter of 2007. Although uncertainty over such factors as future interest rates in major countries makes it difficult to predict the direction of currency exchange rates, these forecasts assume exchange rates of $¥ 120$ to the U.S. dollar and $¥ 160$ to the euro, representing year-on-year decreases of approximately $2 \%$ against the U.S. dollar, and approximately $6 \%$ against the euro.

## Consolidated Outlook

| Fiscal year | Millions of yen |  |  |  |  |  |  |  |  |  |

## Basic policy regarding profit distribution

With regard to returning profits to shareholders, the company will actively work to do so mainly through the distribution of dividends, taking into consideration planned future investment, free cash flow, and consolidated business performance. Specifically, the mid- to long-term objective is to strive to raise the payout ratio to approximately $30 \%$ on a consolidated basis.
In accordance with this policy, the company plans to pay an interim dividend of $¥ 50.00$ (U.S.\$0.41) and a year-end dividend of $¥ 50.00$ (U.S.\$0.41) for a full-year dividend total of $¥ 100.00$ (U.S.\$0.81) in 2007.

[^0]
## II. Management Policy

## (1) Basic Policy

Under the corporate philosophy of kyosei-living and working together for the common good-Canon's basic management policy is to contribute to the prosperity and well-being of the world while endeavoring to become a truly excellent global corporate group targeting continued growth and development.

## (2) Management Goals

Based on this basic management policy, Canon launched two consecutive five-year management plans-Phase I of its Excellent Global Corporation Plan in 1996, and Phase II in 2001— with the aim of becoming a truly excellent global corporation. Through these two management plans, the company promoted a range of management reforms, thoroughly strengthening its product competitiveness and financial base. Since 2006, under a new five-year management plan-Phase III, which targets further growth and improved corporate value-Canon is pursuing "sound growth," making use of the solid management foundation achieved through the two preceding plans, and further expanding its corporate scale while maintaining a high level of profitability. In particular, the company is focusing on the following five important management objectives.

1) Achieving the overwhelming No. 1 position worldwide in all current core businesses, and firmly establishing three display technologies as businesses
2) Establishing new production systems to sustain international competitiveness
3) Expanding business operations through diversification and establishing a Three Regional Headquarters System
4) Identifying new business domains and accumulating required technologies
5) Nurturing truly autonomous and strong individuals promoting everlasting corporate reforms

## (3) Business Challenges and Countermeasures

At Canon, the creation of new businesses and maintaining our high profitability structure represent two very important management objectives to ensure continuous future growth.

As for new businesses, we are promoting research based on leading-edge technologies in the company's areas of expertise, such as biotechnology, nanotechnology and life sciences. At the same time, we are also looking into M\&A opportunities and business tie-ups toward launching such businesses. Additionally, we aim to enter the display business, moving away from a focus on still images as we strengthen our ability to deliver video images, which will play an increasingly important role in the broadband era.

With regard to maintaining our high profitability structure, in order to effectively respond to the intensifying price competition centered on the consumer goods market and the investment burden that accompanies the launch of new businesses, we believe that it is important to further improve the profit-earning ability of our current businesses. To facilitate this, we are promoting the development of new products and actively carrying out cost-reduction activities.

We also view our approach to the environment as an important management issue. From the product planning stage through to design, development, production, sales, use, recovery and recycling, we focus our energies on such areas as creating environmentally conscious products that realize energy efficiency, resource efficiency, and eliminate the use of hazardous substances. Additionally, we actively promote the development of recycling systems, the expansion of green procurement policies, the disclosure of environmental information, and participation in environmental conservation activities at the community level.

## III. Financial Statements

Notes: 1. The primary products included in each of the product segments are as follows:
Business machines:
Office imaging products : Office network digital multifunction devices (MFDs) / Color network digital MFDs / Office copying machines / Personal-use copying machines / Full-color copying machines / etc.
Computer peripherals : Laser beam printers / Inkjet multifunction peripherals / Single function inkjet printers / Image scanners / etc. Business information products : Computer information systems / Document scanners / Personal information products / etc.
Cameras: Digital SLR cameras / Compact digital cameras / Interchangeable lenses / Digital video camcorders / etc.
Optical and other products : Semiconductor production equipment / Mirror projection mask aligners for LCD panels / Broadcasting equipment / Medical equipment / Large format printers / Components / etc.
2. The principal countries and regions included in each regional category are as follows:

Americas: United States of America, Canada, Latin America / Europe: England, Germany, France, Netherlands /
Other Areas: Asian regions, China, Oceania

Tokyo Stock Exchange (1st section): Canon Marketing Japan Inc., Canon Electronics Inc., Canon Finetech Inc., Argo 21 Corporation
Tokyo Stock Exchange (2nd section): Canon Software Inc.
Osaka Stock Exchange (2nd section): Canon Machinery Inc.
JASDAQ: Nisca Corporation
Osaka Stock Exchange (Hercules): e-System Corporation

## (2) SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements reflect the adjustments which management believes are necessary to conform them with U.S. generally accepted accounting principles, except for the segment information, as required by Statement of Financial Accounting Standards No.131, "Disclosures about Segments of an Enterprise and Related Information."

The disclosure is omitted for other than listed below, since no significant change has occurred since the date of the annual financial statements.

## Change of Depreciation Method

Prior to the second quarter of fiscal 2007, the Company and its domestic subsidiaries had depreciated machinery and equipment under the fixed-percentage-on-declining base method with certain salvage values. As a result of evaluation of its depreciation method, effective second quarter of 2007, the Company and its domestic subsidiaries have changed their depreciation method to $250 \%$ declining balance method with salvage values of JPY 1. As a result of this change, income before income taxes and minority interests, and net income for the six months ended June 30, 2007 decreased by JPY 19,330 million (U.S.\$ 157,154 thousand) and JPY 11,178 million (U.S.\$ 90,878 thousand), respectively.

## 5. Notes to Changes in Accounting Policies <br> ( Parent company only )

Change of Depreciation Method
Due to the amendment of Japanese Corporate Tax Law in 2007, the Company changed its method of depreciation of buildings purchased on or after April 1, 2007 to the straight-line method at rates prescribed in the amended corporate tax law and its method of depreciation of other tangible fixed assets purchased on or after April 1, 2007 to the declining-balance method at rate prescribed in the amended corporate tax law.
The changes in accounting for depreciation did not have a material impact on the statements of income.

> This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management's views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "project" or "should" and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon’s targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon's annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

[^0]:    This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management's views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "project" or "should" and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon's targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon's annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.
